"Quite simply, ADS and MedicsElite represent the total practice management automation solution. We absolutely love the system and the company, and we still cannot believe that ADS Customer Service contacts their clients on a regular, proactive basis to help ensure total client satisfaction. We love ADS!"
– Jean Cremen, Administrator, Physicians Eye Care Center, Baltimore MD

"With ADS, we have gotten the best of both worlds: a superior product and the company to back it up! ADS provided us with top notch training and continues to provide excellent ongoing support and service. And the transition from our previous system was more effortless than we ever imagined."
– Barbara DiNoia, Administrator, Dickerman Hollister, MD, Greenwich, CT

"ADS has always been there for us, and it's been many years! The system handles our very high patient volume effortlessly, and quickly provides us with the details we need."
– Mary Donato, Mercy Medical Center, Rockville Center, NY

"Advanced Data Systems is a software company that truly understands the needs of the physician practice. I have been the owner of my own medical billing and consulting company for the past twelve years and have worked on many systems. Because ADS' MedicsElite program is so far superior to any other, I bought it for my own company."
– Kathy Chilver, President, Expert Claims Consultants, Valrico, FL

WELCOME TO MEDICSELITE™

The Ultimate in Medical Practice Management Software

Health care providers and administrators today demand more from their practice management solutions than ever before. The need to increase efficiency and reduce costs while providing high-quality service has led thousands of discerning practices to choose Advanced Data Systems.

For power, flexibility, and reliability, MedicsElite is truly the ultimate Windows™ based practice management software system. MedicsElite is developed, marketed, and supported by Advanced Data Systems, a solid company with over 25 years of experience automating

medical practices. Individual providers, group practices large and small, hospital physician billing, practice management firms, networked providers, billing companies, and many others trust the automation of their practices to Advanced Data Systems.

When considering the real-world needs of today's health care office administration, your first choice should be a proven product, backed by first-class customer support, from a trusted company. Your first choice should be MedicsElite, The Ultimate in Medical Practice Management Software.

MedicsElite Feature Highlights

The MedicsElite Demographics window dramatically eases access to a wealth of demographic information by making all pertinent patient data available with a mouse click.

Answers to any question about a patient's billing, payments, and balance are easily found using MedicsElite's sophisticated Financial Ledger.

For the ultimate in office productivity, the MedicsElite Appointment Scheduler features multiple views, color coding, display of multiple simultaneous providers, user-selectable detail fields, and much more.

CUSTOMER SERVICES AND SUPPORT

Installation, Customization, and Training

ADS installs and configures each new system to the user's needs. Every new system comes with onsite training at the customer's location. Additional training, both onsite and at any ADS office, is available.

ADS provides various training services, including onsite training with every installation.

Software customization (to meet specific usage requirements) and interface development services (for sharing information with other systems such as hospitals and clinical labs, via HL7) are available. ADS has also performed hundreds of data conversions from other systems; there is an excellent chance we have done data conversions from your existing system.

Technical Support

The quality of technical support should be one of the primary considerations when selecting a practice management system. Calls to the ADS toll-free telephone support lines are efficiently routed to the appropriate Software or Hardware Specialist for expert assistance. Support calls are tracked to monitor the nature of the call and the response time. The ADS Remote Diagnostics capability enables prompt determination and resolution for the client. On-site hardware support is also available.

Ongoing Customer Services

The company conducts Client Workshops and User Group meetings throughout the region, at locations convenient for our clients. These enhance the users' experience with the product, and simultaneously provide ADS with the user feedback and suggestions that continue to drive product development and enhancement.

ADS also conducts weekly, in-house training classes at the company's offices, covering a multitude of subjects relating to using MedicsElite. The ADSvantage newsletters are another way ADS ensures that customers are advised of important issues connected with our systems, ADS, and the health care industry in general.

Software enhancements and upgrades, including system updates are made regularly, and governmentally required changes are provided as required.

ADSvantage newsletters inform and educate customers about ADS, its systems, and the health care industry in general.

ADVANCED DATA SYSTEMS

Innovation and Excellence in Healthcare Systems since 1977

Advanced Data Systems, Inc. (ADS) is a leading provider of Practice Management software solutions, currently serving over 35,000 physicians and healthcare providers in every medical specialty and practice size. For over 25 years, ADS has been focused on delivering superior customer satisfaction, through the combination of:

Best-of-breed Product

The ADS family of software solutions offer unparalleled product quality, reliability, ease-of-use, efficiency, and customizability. The comprehensive feature set is customer-driven, innovative, and continuously updated to ensure that it keeps pace with the rapid change that characterizes the healthcare industry.

Absolute Customer Focus

From product development to marketing, training to technical support, every ADS employee is intensely dedicated to customer satisfaction. One hundred percent of ADS' annual sales volume is derived from providing practice management systems to medical practices, healthcare providers, and medical billing companies. Unlike many other vendors, ADS is not a second or third party vendor of another company's product; we have a vested interest in our products and the satisfaction of our customers.

ADS' self-containment benefits customers tremendously. By working directly with customers in every aspect of the business, ADS ensures that it retains a clear understanding of its customers' needs, while developing personalized service and support that result in very high levels of customer satisfaction.

ADS is an IBM Business Partner, a Microsoft Certified Solutions Provider (MCSP), and a Corporate Member of MGMA and PAHCOM.

Accounting/ Administrative

By keeping all operations in-house, ADS is able to offer superior customer driven solutions while providing unparalleled service and support.

On-screen print preview is available for all reports, making it fast and easy to ensure you are getting the exact report you need every time – before it's sent to the printer.

Hundreds of standard reports are easily generated, all of which include extensive customization options.

MEDICS ON-CALL™ – PALMPILOT™ ACCESS TO KEY MEDICSELITE DATA

For the ultimate in convenience, MedicsElite can be extended beyond the confines of the office using any Palm™ or compatible handheld device! Patient, schedule, and appointment data can be easily reviewed and entered while on the go. Back in the office, PalmPilot synchronization with MedicsElite is simple and highly customizable.

Top 10 Reasons To Choose MedicsElite.

1 **Billing and Scheduling – Most Efficient, Most Flexible**

MedicsElite provides the power and flexibility you need to speed up billing and make patient scheduling fast and easy.

2 **Reporting – Fast, Powerful, Customizable**

For access to any financial and patient data in your practice, MedicsElite provides quick, ready-to-use, and fully-customizable reporting capabilities. No programming or add-on report generators required!

3 **Easy to Learn and Use**

The friendly and familiar Windows environment shortens the learning curve for new users. Both new and experienced users can quickly access every feature.

4 **Accomplish Many Tasks at Once**

MedicsElite is specially designed to allow effortless multi-tasking usage so that multiple patients' data can be open at the same time. New task requests can be handled seamlessly as they arise, even while working in other functions.

5 **One Comprehensive Solution**

MedicsElite delivers the complete functionality your office needs in one integrated package, including appointment scheduling, billing, reporting, managed care control, financial ledger, letter writing and printing, and much more.

6 **Access from Anywhere**

You are not always in your office, and neither are your patients. That's why MedicsElite goes beyond the office with cutting-edge features such as anytime, anywhere access from Palm handhelds.

7 **Adapts to Your Needs**

Because MedicsElite is the most customizable solution on the market, you can rest assured that the system will work with your practice the way you want it to. Customize almost any aspect of the system to your requirements.

8 **Ready for the Future**

Cutting-edge technology and a first-class software development team ensure that MedicsElite evolves with our customers' needs. Software updates and governmentally required changes, such as HIPAA, are provided as needed along with having a current Support agreement.

9 **First-Class Customer Support and Training**

Our Support and Training departments are committed to the smooth implementation and use of MedicsElite in your practice. A more qualified, experienced, and dedicated Support and Training organization cannot be found.

10 **A Single Source Whose Trust has been Proven**

MedicsElite is backed by a company in business for over 25 years, with over 35,000 providers currently using our products! Trust the business side of your practice to our cutting-edge technology and unmatched experience in medical practice management software. Advanced Data Systems is your single source for product development, sales, and support – there is no middleman.
